

CITY POLITICS.

The Islanders Circulating their Free Bridge Pledge and

ARE MEETING WITH SUCCESS.

Many Councilmanic Candidates on the City-side are said to be in Favor of the Abolition of Toll—that "Injection of Politics."—Democrats will Work hard to Secure Control of Council this Election

The committee of Island people who have interested themselves in an effort to secure free bridges for foot passage is now circulating a paper the signers of which pledge themselves to do what they can to bring about the abolition of foot toll, and thus place the Island on an equality with the seven other wards of the city. As a matter of course, all the Island candidates for council, both Republican and Democratic, are or will be signers of the pledge, and the committee has received considerable encouragement on the city side of the river.

A member of the committee is reported by the Register to have expressed regret that the Intelligence injected politics into the movement for the abolition of foot toll, and to have expressed further the desire that at least one Democrat be elected to council from the Island. This "injection of politics" consists in the bare announcement in this paper last Monday that the Republican suggestion meeting passed a free bridge resolution unanimously, and that the Democrats didn't think it worth their while to pass such a resolution. If this be an injection of politics from the Register's view-point, let that sheet and the man whom it interviewed make the most of it—and at the same time explain the Democratic indifference to free bridges, as shown at that party's Island suggestion meeting. As to one Democratic member of council from the Island, this is right in line with what the Intelligence disclosed some time ago—the fact that certain Island Democrats would endeavor to so work up their campaign as to run in a successful candidate for council on a free bridge landslide. Unfortunately for these cute Democrats, the Republican organization on the Island is pledged to do all it can for the free bridge cause, and Republicans would do well to give the cold shoulder to any free toll advocate who is unable to see ultimate success for his cause without the election of a Democratic councilman from the Seventh ward. Of course, all candidates on the Island are for free bridges; the only difference is that the Republican candidates are pledged through their suggestion meeting and the Democratic candidates are not pledged at least no free bridge resolution was passed. If there is any excuse for breaking away from party ties on this question the Republican candidates compel support in preference to unpledged Democratic candidates.

Aside from the contest being waged for the chief of police nomination by Messrs. Clemens and Bero, interest in the Republican camp is centered upon the general contests for councilmanic nominations, and care is being taken to insure the selection of strong tickets in all the wards. With such excellent suggestions as those made last Saturday, it will not be difficult to see a strong ticket for council in every ward.

The Democrats affect to believe that they have excellent chances to win in the First, Fourth, Fifth and Sixth wards on council, and that with scattering successes in other wards they will secure a sufficient number of councilmen to give them a majority. The Republican managers claim their chances in all the wards mentioned, with the exception of the Sixth, are as good or better than the Democrats', and that there will be at least two Republicans elected in the Sixth. The Democrats will center their fight on council, knowing that their contest for mayor, wharfmaster, chief of police and city clerk is well-nigh hopeless. With council in their control they can see the lion's share of the fruits of victory in sight—water board, city gas board, city receiver, city collector and board of public works in immediate prospect, and fire chief two years hence. The Republicans, however, are fully aware of the purposes of the opposition, and will not lose sight of the importance of looking after the several councilmanic contests even more closely than on the general result, in which Republican success all along the line seems assured.

Card From Mr. F. M. Milligan. To the Republican Voters of the Second ward, and of Wheeling generally: After a careful study of the political situation in this city, and feeling that I have been vindicated, after satisfactory explanations as to my political standing in the past, and as the rumors that had been circulated as to my actions while a member of council have been disproven, I therefore withdraw my name as candidate for council in the Second ward, and recommend that you select men at the primaries for the different offices who will insure the success of the Republican party at the coming city election. Respectfully, FRANK M. MILLIGAN.

IRON AND STEEL TRADE.

The Demand of the Past ten days is Continuing Unabated.

The demand for pig iron and steel products that has developed during the past ten days in the Pittsburgh district, and having an influence in all the subsidiary markets of the country, has kept up without apparent abatement, says yesterday's issue of the Ohio Valley Manufacturer in the review of the markets. While there have been many silly rumors of unusually large tonnage orders for here, there and everywhere, it is undoubted that a large tonnage has been booked for 1899 delivery, and that every maker is so well supplied with orders that he can complacently regard the outlook. Within the present week orders for a considerable tonnage of steel have been turned away, simply because the delivery wanted could not possibly be completed with, while some declined to accept orders at the prices current. Steel makers refuse to make quotations for more than a limited time, and some only from day to day. The statistical position of pig iron production justifies the expectancy of still higher prices, but some fear any further advance will check the demand, and for this reason a conservative tone is observable, which bodes for the future. Activity during the week has been for finished forms of steel rather than crude products. Structural shapes, sheets, ship plates and railway material have been most in demand. Russia is reported as being the market for a heavy lot of ship plates and allied material, but desiring delivery before April, which is said to be impossible.

Pig iron is firm at the base of \$10 at furnace in the valleys and \$10.75 Pittsburgh; even higher prices have been quoted, terms depending on time of delivery. Billets are firm at \$16 for Bessemer and one dollar higher for O. H. Demand for Bessemer billets has been enhanced by the heavy orders for rails that have been placed during the last thirty days; makers are chary about accepting orders at \$16, and demand a slight advance for near delivery.

Turned plate plants are again starting up, the merging of the mills of the country into the American Tinned Plate Company having been completed at Chicago during the last ten days. Under the system hereafter to be observed production will be kept within close distance of demand, and while prices will be kept low, they will be held on a profit-paying basis. Capacity is now adequate to supply the demand of the home markets, and when the new system is better adjusted it is hoped that a considerable export trade may be developed. Prices are nominal, with stocks unimpaired by the combination yet to draw from. Full weight, C, \$2.90, 100 pound, \$2.25, 90 pound, \$2.65, 95 pound, \$2.70 in car lots. Terns are held at similar figures for like weights.

300 Fine Umbrellas, worth \$2.50 and \$3, go for \$1.98, Friday and Saturday only, at WILL, 1311 Market St.

Auction Sale this afternoon and evening. Goods at this own price.

WHITE, HANDLEY & FOSTER.

AT "OLD BETHANY"

The Outlook for the Coming Year is Reassuring

OWING TO ENERGETIC EFFORTS

In Behalf of the College—Dr. Young, who was Asked to take the Presidency, is Very Certain to be Secured and his Administration will Further the Cause Considerably. Characteristic Love for Bethany by Alumni.

Despite the impressions to the contrary, Dr. Young has not yet been made president of Bethany college, but the trustees are hopeful of securing him. Dr. Young is now holding the Bible chair in the University of Virginia, and if the college will guarantee him a salary of \$1,500 per annum he will come. The salary matter promises to be adjusted shortly with satisfaction to all interests concerned.

It is conceded that the college will make great strides if Dr. Young becomes Bethany's new president. The vacancy caused by the resignation of President Hagerman in June is being filled by Professor Green, chairman of the faculty.

Bethany's admirers wherever found are enthusiastic itself. The financial set-backs the school has received tend only to make them strive with greater efforts to hasten the day when old Bethany shall stand upon a foundation strong and unassailable. The students and faculty alike would form themes for eloquent pens. They know that if Bethany weathers the storms for five years longer the desired results will materialize, for at the end of that period the college will receive moneys bequeathed to it. This hope is based, selfish as it may sound, on the probable deaths of men greatly advanced in years, whose wills stipulate the sums they intend to give to Bethany after their death.

The two field agents, Mrs. S. Richardson, now canvassing this city, and Rev. Campbell Jones, covering the interior of the state, are meeting with decided encouragements, and many additional students are booked for the next school year. Mrs. Richardson has taken upon her shoulders the weighty task of attempting to raise \$20,000, which is to endow a chair to be known as the West Virginia chair. Of the \$100,000 necessary to put the college on a sound financial basis, \$20,000 has been raised and, which invested with the Mercantile Trust & Loan Company of Pittsburgh, is netting a good annuity, which with the rentals from the dormitory, tuition, etc., amounts to a considerable sum, but far short of the receipts necessary.

The trustees feel that the time has come when there must be more done to save the historic institution from disbandment. Hence they intend to be successful. They are all good business men, who can be relied on to bring Bethany out on top, and had the system they are carrying out now prevailed in former years, it is reasonable to presume that the college wouldn't have such a fight for existence. And in the light of the energetic efforts of the college's friends and alumni and the healthy condition of affairs as compared with a few years back, Bethany will soon reach the haven of security.

NO FAITH CURE

ABOUT STUART'S DYSPEPSIA TABLETS.

They Cure Stomach Troubles and Indigestion Anyway. Whether You Have Faith in Them or Not.

Mere faith will not digest your food for you, will not give you an appetite, will not increase your flesh, and will not strengthen your nerves and heart, but Stuart's Dyspepsia Tablets will do these things, because they are composed of the elements of digestion, they contain the juices, acids and peptones necessary to the digestion and assimilation of all wholesome food.

Stuart's Dyspepsia Tablets will digest food if placed in a jar or bottle in water heated to 95 degrees, and they will do it much more effectively when taken into the stomach after meals, whether you have faith that they will or not.

They invigorate the stomach, make pure blood and strong nerves, in the only way that nature can do it, and that is, from plenty of wholesome food well digested. It is not what we eat, but what we digest that counts.

Stuart's Dyspepsia Tablets are sold by nearly all druggists at 50 cents for full sized package, or by mail from the F. A. Stuart Co., Marshall, Mich.

AMUSEMENTS.

If you are fond of a real, old-fashioned turkey dinner you will enjoy seeing James A. Herne's delightful home play, "Shore Acres." They serve a turkey dinner in the second act of this piece that will do your heart good to see, and if you are sentimental you may laugh or cry over it just as you please. If your appetite is bad, it will make you genuinely hungry. An artistic interpretation of "Shore Acres" will be given at the Opera house Christmas, matinee and evening, Monday, December 26.

"WHEEL OF FORTUNE."

The great holiday attraction coming to the Grand on Monday for a Christmas matinee and evening for three days, is "The Wheel of Fortune," a new and original comedy drama, which will be produced with all new scenery and mechanical effects. Every climax is a revelation of the new idea. The songs, dances and many refined specialties in-

HER MONEY, WOULD HAVE BEEN RETURNED

If Hyomei Had Failed to Cure.

Boston, Oct. 5, 1897.

R. T. BOOTH CO. Gentlemen—I have suffered from Asthmatic Hay Fever for twenty-four years, and failed to find relief from any of the many doctor's prescriptions or advertised remedies which I used. I had almost given up hope, when I began the use of Hyomei, which entirely cured me in four weeks' time.

Yours truly, MAX WILLIAMS R. AVERY, (Mrs. Avery is the wife of W. R. Avery, of the American Express Co.)

Don't you think it foolish to suffer, when a trial of this New Treatment costs less than one visit to the physician, and you are guaranteed against loss?

Your druggist keeps it, and will tell you of hundreds who have been cured. Price \$1.00 complete. Extra bottles 50c. Sent by mail, postage prepaid.

R. T. BOOTH COMPANY, Rooms 20-21 Auditorium Building, Chicago, Ill.

roduced during the numerous scenes are rendered by an excellent company. Nothing has been left undone to make this production a triumph of sensation. Miss Mattie Keene has also been especially engaged by the management, and will appear in her own original characterizations and songs.

"THE HEART OF CHICAGO."

"The Heart of Chicago," Lincoln J. Carter's scenic masterpiece, was presented at the Grand Opera house last night to an audience which was unanimous in the opinion that it was one of the most pleasing productions of the season in the local theatres. The approaching railroad train is an effect which is startling in its realism, and proves Mr. Carter to be a master in his line. The company presenting the play is stronger this season than ever before, and every part is in thoroughly capable hands. There were several curtain calls during the evening, and all were richly merited. "The Heart of Chicago" will be on the boards during the remainder of the week, and should be seen by all who appreciate a really meritorious melodrama.

"WHEELING PATRIARCHY."

Last night at Turner hall an entertainment was given by Wheeling Patriarchy, colored Odd Fellows, for the benefit of the young men's drill corps. A large audience was present and enjoyed the excellent musical and literary programme arranged for the occasion.

THE RAILROADS.

New tariffs on coal from the Ohio field went into effect Wednesday as a result of the position taken by the Hocking Valley in reducing the freight rate on coal to meet the competition of the West Virginia field.

Under the reduced tariff of the Hocking Valley the rate from mines to Columbus and intermediate points has been cut from 75 to 50 cents, and to points in Ohio beyond Columbus from 95 cents to 80 cents. To points beyond the state the rate has been reduced from \$1.10 to 80 cents. The Michigan rate has been cut from \$1.15 to 85 cents, and the rate to Chicago and Illinois points from \$1.50 to \$1.25.

The cut is to be met by competitors and the Ohio Central, Columbus, Sandusky & Hocking and Baltimore & Ohio have already announced that new tariffs will go into effect, while the Wheeling & Lake Erie, Cleveland, Lorain & Wheeling, and Toledo, Worthington Valley & Ohio will of necessity quickly follow.

For some time rates have been in a demoralized condition, and the published tariffs will announce publicly what it is charged has been going on secretly to a considerable extent for quite a time.

INCREASED MILEAGE.

Preliminary estimates made by the Railroad Gazette show an increase of 2,867 miles during 1898 in the railroad mileage of the United States. This is the largest increase reported since 1892, when 4,419 miles were added.

Of the increase this year more than one-third was supplied by nine roads, among which were the Great Northern, 165 miles; St. Louis & San Francisco, 142 miles; Mobile & Ohio, 128 miles; Washington County (a new road in Maine), 118 miles; Pecos Valley & Northeastern, 106 miles; El Paso & Northeastern, 100 miles.

Four of these states have more than one-quarter of the new mileage, and it required thirty-three states and territories to make up another fourth of the increase. One-half of the total mileage of the year was in nine states and territories. Ten roads in Canada have built 448 miles, which is more by 53 miles than that reported last year. Of this mileage more than one-half, 252 miles, is credited to the Canadian Pacific.

Ten roads in Mexico have built 412 miles, which is nearly 100 miles more than the totals of last year.
